PROFESSIONAL SUMMARY

Results-driven Data Analyst & ML Engineer with a PG Diploma in Big Data Analytics (CDAC, Bengaluru) and MCA. Skilled in Python, SQL, Power BI, ETL pipelines, and Machine Learning. Experienced in building end-to-end data solutions, dashboards, and predictive models. Adept at transforming complex data into actionable insights for business decision-making.

TECHNICAL SKILLS

- Programming & Data:** Python (Pandas, NumPy, Scikit-learn, EDA), SQL (Oracle 11g, MySQL)
- ML & AI:** Machine Learning, NLP, Gen AI, LLMs, ChatGPT, Copilot
- Big Data & Cloud:** PySpark, Apache Spark, Hadoop, ETL Pipelines, AWS
- BI & Visualization:** Power BI Desktop & Service, Tableau, Excel (Advanced)
- Tools:** Git, GitHub, VS Code, Jupyter Notebook

EXPERIENCE

Data Analyst Intern · Sumago Infotech Pvt. Ltd. · Pune	(6 Months) 2024
- Developed and optimized SQL queries and stored procedures, improving reporting performance and efficiency. - Built interactive Power BI dashboards to track KPIs and business trends for stakeholders. - Performed data cleaning, transformation, and analysis using Python (Pandas, NumPy) and Excel. - Collaborated with cross-functional teams across SDLC to deliver data-driven solutions.	

Simulation Internships: Data Visualization Analyst @ Tata (Forage) · Data Analytics @ Deloitte (Forage)

PROJECTS

Hospitality Analytics Power BI Dashboard	Designed and developed an interactive Power BI dashboard leveraging SQL-based transactional datasets to monitor real-time KPIs and operational metrics. Implemented data modeling, DAX measures, and dynamic visualizations to uncover performance trends. Enabled stakeholders to perform drill-down analysis and make data-driven decisions through automated reporting.
Medical Recommendation System – Python / ML	Designed a machine learning-based system to predict possible diseases from user-reported symptoms and generate personalized healthcare recommendations. Focuses on accurate symptom analysis and reliable disease prediction, along with detailed disease descriptions, precautions, suggested medications, workout routines, and diet plans. Delivers data-driven healthcare guidance using Python and ML techniques.

EDUCATION

PG Diploma – Big Data Analytics (PG-DBDA) · CDAC, Bengaluru	2025 – 2026
MCA – Master of Computer Applications · JSPM Rajarshi Shahu College of Engineering, Pune	2022 – 2024
BCA – Bachelor of Computer Applications · Modern College of Arts, Science & Commerce, Pune	2019 – 2022

CERTIFICATIONS & RECOGNITION

 **Best Performance of the Month** – Sumago Infotech | Data Visualization: Empowering Business with Effective Insights – Forage / Tata Data Analytics Job Simulation – Forage / Deloitte | Data Visualization with Power BI – Great Learning Academy
